

IAAI-90 / Second Annual Conference on Innovative

"...The 1989 Conference on Innovative Applications of Artificial Intelligence (of-fered) a solid two and a half days of back-to-back presentations covering a range of interesting, practical, and re-freshing applications.

"Many AI applications-oriented confer-ences mislead in their offerings; frequent-ly applications are (1) of little practical value, (2) repeats of applications we've heard time and again, or (3) so mun-dane that the intelligent use of AI is ques-tionable. Fortunately, by avoiding these potential flaws, IAAI has raised the stan-dard for other AI applications confer-ences.

"Not only did IAAI feature innovative applications, the conference was also in-novative in its presentation formats. The audience, seated in a large auditorium, enjoyed dazzling shows put on by the au-thors of each accepted paper. Unlike typi-cal 'academic' conferences, authors were encouraged to use video techniques, workstations hooked to large-screen dis-plays, and other media devices to demon-strate their applications. Papers (from IAAI) appear in a specially edited book ... published by the new AAAI/MIT Press team."

The Second Annual Conference on Inno-vative Applications of Artificial Intelli-gence, to be held at Georgetown Univer-sity in Washington, D.C. May 1-3, 1990, will highlight twenty-five of the most in-novative AI applications which actually have been deployed. The conference is complementary to the National Confer-ence on Artificial Intelligence which em-phasizes scientific and engineering re-search results in the field. The format for IAAI will remain the same as in 1989 with a series of plenary and panel discus-sions, highlighted by computer demon-strations of deployed systems.

Past participants, including leaders in both industry and research, agree that IAAI was one of the most worthwhile AI applications conference held during the past year. We invite you to join us for this very successful and exciting event!

Applications of Artificial Intelligence: May 1-3, 1990

Air Transportation

The American Association for Artificial Intelligence has selected Northwest Airlines as the official carrier and Custom Travel Consultants as the official travel agent for the IAAI-90.

Fares will reflect a 5 percent savings off any applicable discounted fare or a 45 percent discount from the full roundtrip coach class fares. In order to qualify for these discounts, reservations must be made through Custom Meeting Consultants, 2105 Woodside Road, Woodside, CA 94062, 415/369-2105, 800/367-2105 (outside California), 415/369-4170 (fax). Custom Travel can be reached Monday through Friday, 9:00 am to 5:00 pm PST. Reservations can also be made by calling Northwest at 800/328-1111. Please identify yourself as an IAAI-90 attendee and give the **code ????**

Restrictions: Discounts are not valid on military, VUSA, government contract fares, or fares

under \$100.00. Reservations for flights requiring advance purchase must adhere to all the restrictions that apply to that fare. Regular coach fares and some other nonrestrictive fares do not require advance booking. To be sure of availability, book early. In order to qualify for these special discounted fares, travel must be round-trip within the continental United States and travel must take place between April 27 and May 6, 1990.

Disclaimer: In offering this program for sale, Custom Travel Consultants and Custom Meeting Consultants (CTC Travel Corp.), and the American Association for Artificial Intelligence act only in the capacity of agents of the air carrier, hotels and others who are providing transportation, accommodations and other services included in this program.
